

Edisson Reinozo

Full Stack Software Engineer

Cuenca, Ecuador edisson350@gmail.com edissonreinozo.com github.com/edzrn linkedin.com/in/edzrn

PROFILE

Full stack engineer with 6 years of experience, the last 3+ years at Florie working across SvelteKit and Nest.js. Strong background in React/Redux and Vue from previous projects. I handle everything from backend logic to frontend, including Flutter for mobile. Comfortable owning features end-to-end in small, remote teams — taking ideas from concept to production in short cycles. Experience with complex integrations (FHIR medical data) and leading technical transitions (Vue → SvelteKit, native → Flutter).

EXPERIENCE

Software Engineer — Florie

Nov 2022 – Present

Remote (Europe-based team)

- Full stack development with SvelteKit (frontend) and Nest.js (backend)
- Maintain and develop Flutter mobile apps, keeping them in sync with the core product
- Led transition of native iOS/Android apps to shared Flutter codebase, improving iteration speed
- Migrated web UI from Vue to SvelteKit as part of stack modernization
- Built FHIR medical integrations with ECW — high-stakes work requiring precision with state and data sync
- Work in a small, multifunctional team with fast idea-to-production cycles

Software Developer — Bauer DeutschAkademie

Jun 2021 – Nov 2022

Remote

- Built software for managing course completion certificates using React.js
- WordPress administration and SEO optimization
- Supported various business administration and internal tooling functions

Software Engineer — Solbicon (Freelance)

Jun 2020 – Nov 2020

Cuenca, Ecuador

- Built a real estate portal from the ground up
- Consulting on media and video production workflows

Software Engineer — TangoCode Inc.

Feb 2019 – Mar 2020

Cuenca, Ecuador

- Developed components for React/Redux web application
- Wrote scripts for data recovery and task automation
- QA testing and automation with Selenium

SIDE PROJECTS

Ganafy.com — Digital loyalty platform for Ecuador SMBs. Stamp cards via Apple/Google Wallet. Built with SvelteKit, includes RBAC, analytics dashboard, QR validation, and push notifications.

Total WA Ecosystem — Suite of WhatsApp business tools: `wsp.chat` link shortener SaaS, Chrome extension for contact export, and `totalwa.com` landing page built with Astro.
